ELK RIDGE OUTFITTER'S POLICIES AND EQUIPMENT LIST FOR RIFLE & ARCHERY HUNTS

WEATHER

Archers can expect any kind of weather from dry 80-90 degree days and 35-45 degree nights to 30-40 degree windy wet days and 0-30 degree nights. Rifle hunting, till approximately Nov 15 the weather can vary greatly between late summer type weather and cold wet winter weather, after mid November expect snow and cold winter weather.

BOOTS AND SHOES

Hunters may want light-hiking boots that are waterproof and heavier insulated boots possibly with liners. All boots should have good lug type or air bob soles. Bring slippers or light shoes for walking around lodge in the evenings.

CLOTHING

We recommend wool, it's warm, and sheds water, and are quiet. Fleece also works well. We like to dress in layers so we can shed them as the day warms. Camo clothing is recommended for archers, Mountain Shadow and Desert Shadow from Kings Outdoor World (www.shadowcamo.com) or Ridge Ghost and Prairie Ghost from Montana Camo Inc. (www.ghostcamo.com). These patterns work well in the areas we archery hunt. Rifle hunters need 400 sq inches of orange, we recommend mesh nylon or fleece vest for quietness.

BEDDING AND TOWELS

No sleeping bag needed, we provide beds with sheets, blankets and pillows. We also provide towels for your personal use.

PACKING THINGS FOR AIRLINE TRAVEL

We suggest packing everything in one large bag so you will be allowed more room for your game on the way home. You may want to send your luggage home by UPS or Parcel Post so you can take more meat home with you to save shipping costs.

ALCOHOLIC BEVERAGES

We do not provide any alcoholic beverages. You are welcome to provide your own.

OUR GROCERIES POLICY

We supply all your meals that will be well rounded and nourishing, however you will need to let us know prior to your hunt if you have any food allergies or special dietary needs. We will do our best to accommodate your needs if we are able to plan ahead.

ARCHERY EQUIPMENT

Bows should have least 70# draw weight or more. Arrows must weigh at least 500 grains. We don't allow mechanical broad heads that open on impact; we've lost too many animals with these. We don't recommend carbon arrows; the material they're made of doesn't allow a bad hit animal to heal. A good heavy 3 or 4 bladed broad head is recommended. Over draws are ok. Learn to use a hands free type cow elk call. Archery hunters will be required to shoot a target with a guide before they hunt. Shots at elk will be 40 yards or less.

GUN & AMMO

Rifles of 270 or larger are recommended, the most important thing is to be able to shoot it accurately. Your rifle needs to be sighted in for 200 yards. Use the heaviest bullet weight that works well at 200 plus yards, we don't want them running out of steam at 200 yards, shots will be mostly in open country. Bring at least 2 boxes of ammunition, you will be required to check your sights with a guide when you arrive, and may have to resight your rifle if you should it bump it during the hunt.

PAYMENT

Payment can be made with check, cashier's check, money order, travelers checks or the following credit cards: master, discover or visa.
